	i filliary Examiner, Art O	1111 01 0Z	

Continuation of 11. does NOT place the application in condition for allowance because: it is not found persuasive. Applicant's argument that the Cuilleron threading is not helical (or obviously helical) is not found persuasive in light of the repeated statements in the reference that the implant is screwed into bone tissue. Moreover, contrary to applicant's assertions, the threads illustrated in Figure 5 are not symetrical, but rather slanted with respect to the axis of the implant.
